Great place to take our baby. Dr. Burgos takes the time to answer all your questions, which is very important for me because I'm a first-time mom.

I've been taking my 3 girls there since my 17 years old was 5 and never have been disappointed. The doctor takes time to explain everything and makes everybody feel comfortable to ask questions.

It was our first time meeting Dr. Burgos. Yet, it felt that we've been seeing her for a long time now. She talked to my son and emphasized pointers like, cell phone usage, importance of sleep, having good grades, plans for college like we (the parents) would and do. We'll miss Dr. Mao (congratulations on your retirement!) but, we thank him for leaving us in good and capable hands of Dr. Burgos.

HIGHLY RECOMMENDED! Dr. Burgos and her staff are top-notch! She and her staff have gone above and beyond every single time that we have taken our baby to her (she has been our baby's pediatrician from day 3). Whether it was for our baby's regular check-ups, our baby's vaccinations, or because our baby came down with something, Dr. Burgos has always been very thorough, caring, and patient. She and her staff are very knowledgeable, very experienced, friendly, and always thoroughly answer our questions and address our concerns. They make us feel welcomed, cared for, and put our baby at ease. Going to Dr. Burgos feels like you are visiting a family friend who happens to also be a superb doctor. Despite living in Houston, both of my sisters in law have now switched their children over to Dr. Burgos, and have told me that they are very happy that they did so. Dr. Burgos and her staff are fully bilingual in English and Spanish, and Dr. Burgos is equally at ease in both languages. If you are looking for a great pediatrician with a great staff, look no further. They will greet you with a smile and a pleasant demeanor, even if you are the last appointment of the day on a Friday afternoon, after they have had a long and exhausting week. Highly recommended! A very definite 5 STARS!

Update: Our baby had an allergic reaction this morning and had redness and bumps (hives) on her neck and chin....Dr. Burgos and her staff once again went above and beyond and managed to squeeze us into the schedule within an hour....everything turned out well...thanks again Dr. Burgos...a commanding 5 STARS 🌟.

Very kind staff, very little wait time. No one made us feel rushed or hurried and they listened to all of our questions/concerns and addressed them.

I took my kids today for the first time and I waited about 15 min before kindly asking how much longer? 15minutes isn't bad but since I was the only one there and my two kids under age 5 were sick, I just worried that it would take longer than that to get my a room.. The staff assured me it wouldn't be much longer and I was called back in less than 5. The staff was very kind and very attentive to my kids. Dr Burgos was great! I've been searching for a place that had rapid tests, intelligent and kind staff, and a doctor who is also kind and smart. I found it. I loved the things the dr said to the PA while training her and I loved how she took time to explain the different medication allergies. If I could say one thing is to maybe put a bell or something (I don't know what would be best), but something to help ease the stress felt waiting for someone to open the little window. Lol Even if you don't come right away it might give some of us peace of mind. :)

Dr. Burgos has treated my children with care during their well-check visits and has listened to my concerns and their aches when they have been sick. I highly recommend Dr. Burgos as she gets to know her patients and treats them like family.
